

# Customer Experience

Where is the world going?

José Manuel Alcocer  
Partner Sales Manager

May 31, 2018

# Digital transformation is happening everywhere

93% of CxOs believe that digital will disrupt their business

Forrester

RETAIL

By 2020, CEOs expect 41% of revenue to be driven by digital

Gartner

TELCO AND MEDIA

Less than 3% of incidents are found before affecting users

Gartner

GOVERNMENT

87% of companies think that digital transformation is a competitive opportunity

Capgemini

FINANCE

TRAVEL

60% rate app performance as #1 expectation, ahead of features

Forrester

CONSUMER GOODS

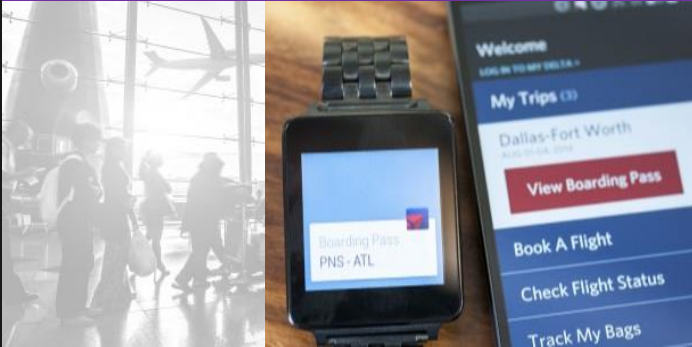

51% of millennials will complain on social when user experience is bad

Harris Poll

This is why monitoring is more important than ever

# And applications are eating the world

## The way we fly

90% book with digital self service

## The way we bank

50% use smart devices to access financial services

## How we connect to everything

GE: Investment in IoT is expected to top \$60T during the next 15 years

## The way we get around

Uber is worth more than Ford and GM put together

## The way we shop

Online sale grew 3x faster than traditional retail in 2017

## Connected health

Billions of connected clothing will enhance data and analysis

FORRESTER®

Traditional monitoring is dead

# Application complexity

On average, a single transaction uses 82 different types of technology

It takes over a month to monitor a single application from end-to-end. This does not scale.

# External complexity

Operating system Windows 10	Network connection LAN
Device Desktop	Screen resolution 1920x1080 px
Browser Firefox	Content delivery Akami

Operating system Android 6.0	Network connection Cellular
Device Tablet	Screen resolution 2736 x 1824 px
Browser Chrome	Third party app Cloud Foundry

Operating system Windows Phone	Network connection Cellular
Device Smartphone	Screen resolution 1280x720 px
Browser Internet Explorer	

Operating system Apple Mac OS	Network connection WLAN
Device Notebook	Screen resolution 2560x1440px
Browser Firefox	Content delivery Cloudflare

Avg page weight increased by 183% since 2013 with more javascript & 3<sup>rd</sup> party objects and more performance risk.

Operating system Windows	Network connection Cellular
Device Panel PC	Screen resolution 1280x720 px

Operating system Windows 10	Network connection Cellular
Device Tablet	Screen resolution 2736 x 1824 px
Browser Edge	Third party app Facebook

Operating system Apple iOS	Network connection Cellular
Device Smartphone	Screen resolution 1920x1080px
Browser Safari	Third party app Twitter

Operating system Chrome OS	Network connection WLAN
Device Chromebook	Screen resolution 3840x2160 px
Browser Chrome	Third party app jQuery

Most tools are blind to what's happening in the browser

# Today's digital blind spots are massive

What you see

What you don't see

95% of enterprises have an incomplete digital experience monitoring strategy

Mobile leads all digital interactions

51.3% of web traffic is from mobile devices

75% of retail sales are digitally influenced or direct

Monitoring all entry points across devices, channels, and users is a must

## Users expect unique and personal experiences

**88%** of companies say their customers expect a personalized digital experience

**2/3<sup>rd</sup>** of website content comes from 3rd parties

Every dynamic interaction and dependency needs to be tracked

# The speed of innovation impacts digital performance

Releases  
then

Releases  
now

High performing IT orgs have  
**46x** more frequent code  
deployments

**52%** of users will  
complain on social media  
about a poor user  
experience

Exceptional user engagement requires real-time monitoring and 100% visibility

**performance monitoring is not enough**

**it's too complex for humans**

# Self-Driving IT

48  
mph

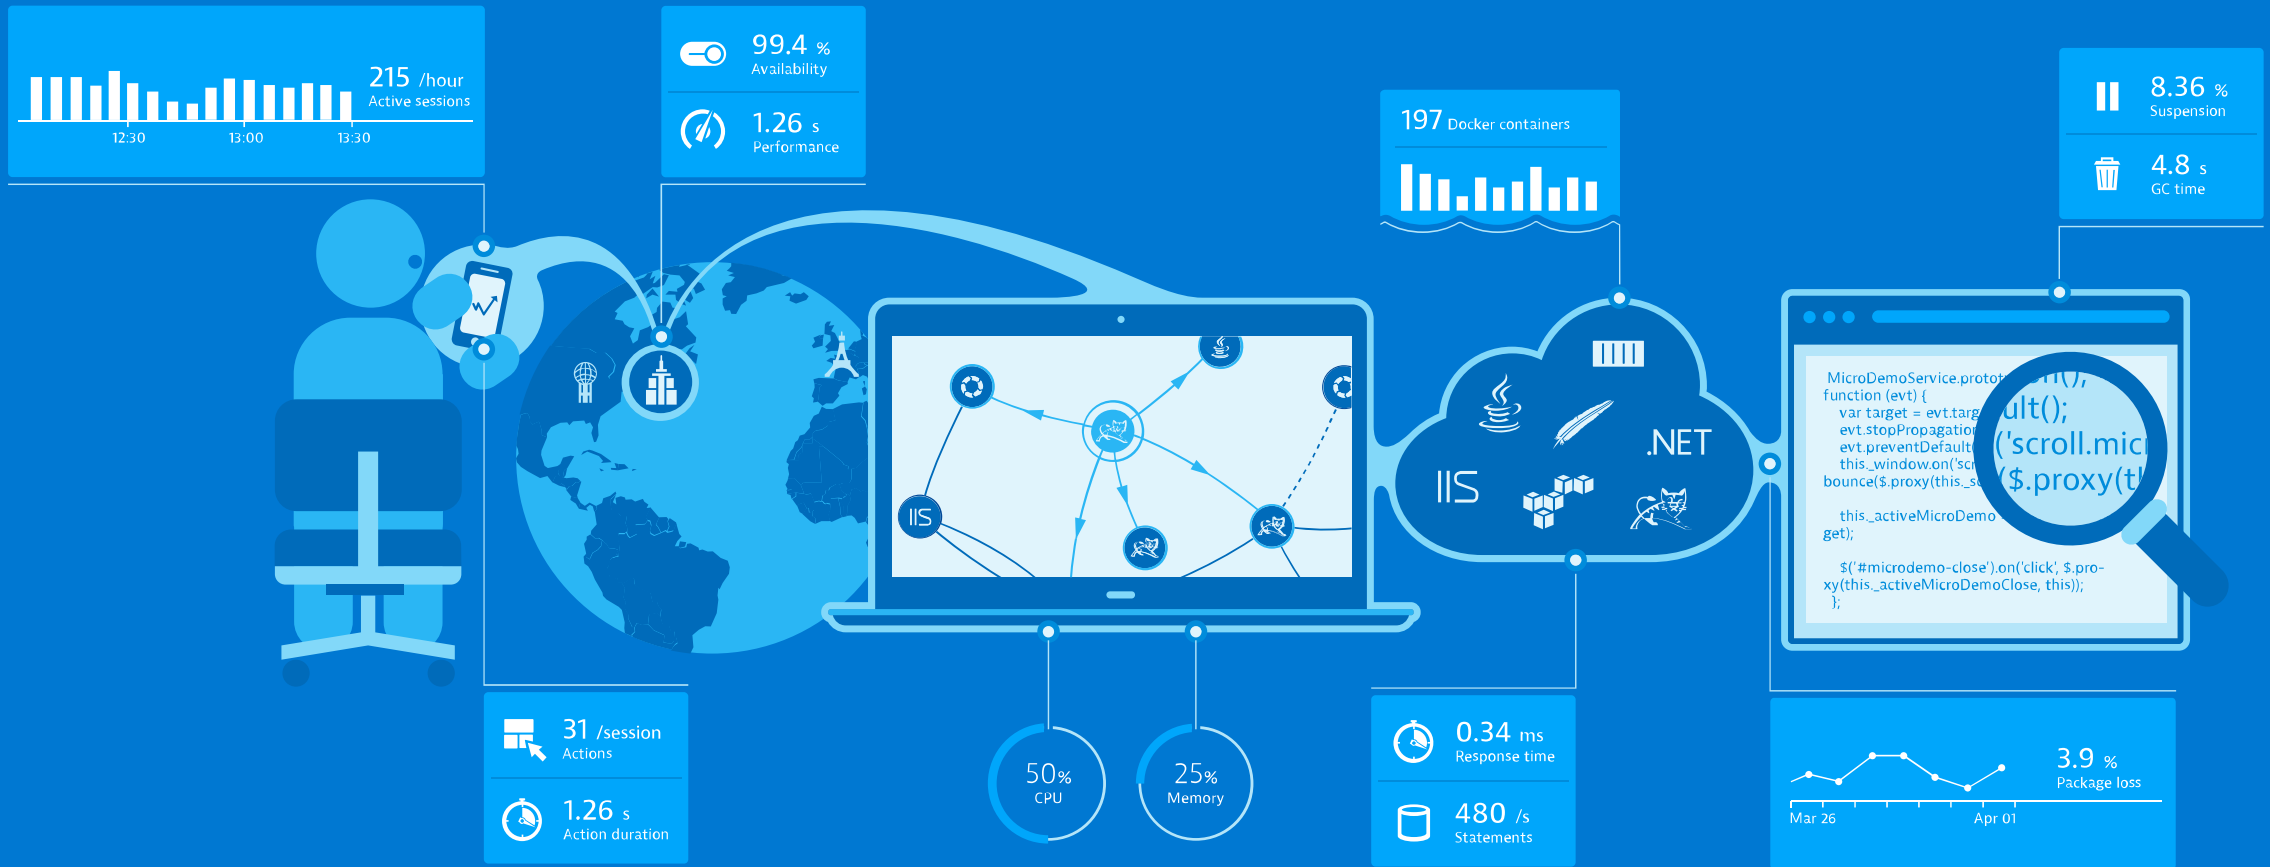

100m

“Because the world needs software to work perfectly”

# Every user, every app, everywhere. AI powered, full stack, fully automated.

Full lifecycle - development, test, and production

# Better data makes Dynatrace artificial intelligence and automation possible

high fidelity, full stack data      Connected end-to-end      Advanced analytics      Massive Automation

All transactions, all the time      PurePath + Smartscape      Expert knowledge built-in      Causation gives answers

Auto instrumentation      Real-time dependency detection      Self learning A.I.      Automate the effort

“By 2020 every business will become a digital predator or digital prey.”
